

Agrisure RW Corn (MIR604)
2007 crop year

Affective immediately the Cooperative Elevator Co. will not be handling Agrisure RW corn for the 2007 crop year.

Syngenta announced on March 23rd 2007 that it intends to sell Agrisure RW corn rootworm protected hybrid for the 2007 planting season in the U.S. This technology has been approved in the U.S. but has not been approved for use in major export markets like Japan and the European Union. Due to the fact that Agrisure RW corn has not been approved in those markets and grain bound for those export markets cannot be contaminated with Agrisure RW corn, the **Cooperative Elevator Co. will not be handling this variety of corn.**

If you have any questions regarding this matter please contract your Cooperative Elevator Co. grain marketing department at 989-453-4500

Here is a web site for further information on this variety of corn.
